

Ancient Aliens???

or

Ancient "Angels"?

By

Dave Lindsay

I DO NOT agree with their conclusions, but if you have not seen the TV program, Ancient Aliens, I strongly encourage you to watch the show just to explore and consider all the amazing evidence they present.

Nearly every episode shows evidence of scientific, archaeological, and biblical depictions of ancient history, which is being re-written by today's monumental discoveries. They believe that extraterrestrial beings came to earth thousands of years ago to teach and/or help ancient man build the phenomenal stone structures that still stand all over the planet.

Ancient Alien Theorists have tens of millions of followers who believe that extraterrestrial beings from another planet or galaxy have been visiting our world and influencing mankind's development for tens of thousands of years.

While it is easy to perceive their archeological and historical evidence as very convincing, logic and rationale seems to be lost in the translation of their conjunctures. However, when we replace the word "Aliens" with "Angels", it opens the dark hidden crevasses of your mind to a whole new set of intriguing and very logical possibilities.

Ancient Astronaut Theorists contend that extraterrestrial beings in ancient times were INCORRECTLY interpreted as gods and angels. If these "followers" are not provided with access to the facts as presented in and according to the Bible, many eternal souls will be lost to this deceiving alien perspective.

Extraterrestrial beings perceived as gods, perhaps (???) . I am certainly NOT going to spend the balance of my life trying to disprove their findings. That would be fruitless, but there is substantial biblical evidence that indicates these so-called ancient

aliens were, and are, most likely Ancient Angels.

The Bible tells us that angels are REAL and POWERFUL beings. When Satan was cast out of heaven, 1/3 of the angels in heaven were cast out with him. Satan's angels, demonic beings, make up a mighty army of beautiful and brilliant beings with heavenly capabilities working for their leader to influence mankind. How many angels there are is unknown, but we do know that just one angel was sent by God to destroy 185,000 men. So, their capabilities are truly extraordinary.

We also know that, if necessary, God would send legions of angels to help his people. When the Bible was written, a legion of Roman soldiers was defined as 10,000 men. So, it is safe to assume that there are most likely tens or hundreds of thousands of angels...maybe more! Angels were God's divine "workers", each with specific duties, and they were used to create the universe according to His commands.

Unfortunately for us, the supreme beings that make up Satan's army are currently competing for "right-hand man stature" in his evil realm by wreaking havoc on mankind in his, not God's, burgeoning world!

Believers know that 'No weapon formed against them shall prosper', but it was Satan's army that influenced mankind and modern technology in our world. These demonic angels are preparing to fight Satan's battle against God. All the extraordinary weapons of mass destruction that exist today and are still being developed serve one, and only one, purpose. These weapons will be used by Satan's army to wage his war against God.
